

7 May 1952

TO : Project Review Committee  
FROM : Chief, Medical Staff  
SUBJECT: X-Ray Equipment

1. PROBLEM.--The present X-Ray unit in the Central Building Dispensary is inadequate.
2. FACTS BEARING ON THE PROBLEM.--
  - A. The present X-Ray unit is twelve years old and has been used in excess of its original design. The life expectancy of such equipment is ten to fifteen years.
  - B. Repair costs for the last calendar year have exceeded \$1,200.
  - C. The age of the equipment places technical limitations on the Medical Office requiring use of consultant's private equipment for complex procedures.
  - D. The cost of new equipment is estimated at \$12,000; allowance for present unit is \$3,000.
3. DISCUSSION.--The facts are self-explanatory.
4. CONCLUSION.--The present X-Ray unit should be replaced by more adequate, modern equipment.

~~CONFIDENTIAL~~  
~~SECURITY INFORMATION~~

5. ACTION RECOMMENDED.--It is recommended that \$10,000 be allocated the Medical Office for the purpose of purchasing necessary equipment.
